1. Claims 1-9 and 16-31 remain elected for examination and claims 10-15 remain withdrawn (not canceled).

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-9, 16-29, and 31 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 20, it is not clear what is the context and meaning of the resume condition and how the detected condition is used.

4. Claims 1-9 and 16-28 are rejected under 35 U.S.C. 102(b) as being anticipated by D'Sa et al, U.S. Patent No. 6,055,630, cited in the previous office action.

The rejection is respectfully maintained for the reason set forth in the previous office action incorporated herein by reference.

The limitation, "determining at the decoder ... based on a second instruction" is not clear as to whether the determination is made based on any action taken by the decoder upon the second instruction.

5. Applicant's arguments filed November 22, 2004 have been fully considered but they are not persuasive.

Applicant argued that the reference does not teach "determining the resume condition at the decoder".

To the extent the limitation does not confine the determining to the decoder and any element that does the determining can be brought to the decode stage, the reference sufficiently teaches the limitation, albeit the determination is performed at the trace cache stage.

6. Claim 30 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
